

Name _____ Date _____ Period _____ Page _____

A Catalyst and the Rate of Reaction - Notes Sheet

Key Concepts:

- ❖ A catalyst is a substance that can help the reactants in a chemical reaction _____
_____.
- ❖ A catalyst does not actually become _____ of the reaction.

A Catalyst and the Rate of Reaction Processing

In this activity you saw **four things** that are evidence of chemical change. List all 4 and draw a picture to represent at least one of them.

Evidence of Chemical Change
1.
2.
3.
4.
