

## An Introduction to Forces:

### Key Concepts:

- A \_\_\_\_\_ is a push or pull which can cause \_\_\_\_\_.
- \_\_\_\_\_ is the change of position over a period of time.
- When an object applies a force onto another object, it is known as an \_\_\_\_\_.
- An object that is affected by or \_\_\_\_\_ the force from the \_\_\_\_\_ to change its position over time is known as the \_\_\_\_\_.
- The \_\_\_\_\_ of a force by the \_\_\_\_\_ on the \_\_\_\_\_ describes the change of motion of the \_\_\_\_\_.
