

Rock Cycle One Pager

Name: _____

Date: _____

Period: _____

A one-pager is a single-page response to your topic of study. It is a way of making your pattern of your unique understanding. It is a way to be creative and experimental. It is a way to respond imaginatively. It is a way to be brief and concise

The purpose of a one-pager is to own what you are learning. We learn best when we can create our own patterns.

A one-pager connects the verbal and visual; it connects the ideas in what you read to your thoughts. It connects word and images.

Directions:

- | | |
|--------------|---|
| 5 pts _____ | All work must be done on only one side of the paper (the other side of this page) |
| 5 pts _____ | Write "Rock Cycle" somewhere big and bold |
| 5 pts _____ | Put a border around the page. Make the border no wider than 1 inch and make it symbolic of something in this unit. (It should NOT be all words) |
| 10 pts _____ | Using your concepts at a beginning point, display your reactions and connections to the Rock Cycle. Topics that you can include are the three types of rocks, discussion about the process of weathering and erosion, and the processes involved with forming the three types of rocks. |
| 10 pts _____ | Include visual images that have strong relationships to the Rock Cycle. Example would be the actual Rock Cycle diagram. |
| 5 pts _____ | Be colorful and neat. Nothing should be left in plain pencil |
